

California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

About Our School

MUVA (Be.tech High School and Career Academies) is a Manteca Unified dependent charter. Be.tech (initially named MUVA) opened its doors in August 2012, with the School of Culinary Arts & Hospitality Services. Three additional career academies followed; Industrial Technology and Design, opened in August 2013; the First Responders Academy opened in August 2014; and a Video Game Design Academy opened in 2015. Each academy is geared to providing students with job readiness competencies and technical coursework in their career pathway. While enrolled, students also complete requirements to earn their high school diploma. Academic core instruction is facilitated through a variety of modalities including teacher directed, computer-assisted, online programs, project-based learning, blended learning and core subject integration into the CTE coursework. A work experience component provides students with practical employment experience while our Professional Development 101 course, guest speakers and fieldtrip opportunities provide students with broader career and employment exposure.

The Culinary Arts students train in a state of the art commercial kitchen and student-run café. They prepare the food entrees and specialty items served in the café, cater local events, learn restaurant operations and develop independent business ventures. CNC design classes introduce Industrial Technology students to the basic design and fabrications skills used in the fields of metal sheet machining, welding and manufacturing. Students utilize plasma cutters, as well as laser and 3D technology to design and fabricate individual projects. Student entrepreneurship is encouraged.

First Responder students explore the world of public safety, security and emergency services management through four first responder strands: fire, law enforcement, military and medical response teams. They learn basic personal and public safety skills, disaster preparedness, incident command systems and response protocols while training to maximize their own personal fitness level. Simulation drills and training are conducted on a mock streetscape setting that features realistic store fronts and street props built for the academy such as one would find in a downtown business area.

The Game Design Academy is a complete academic program, featuring college preparatory courses and electives focused on the design, programming, and development of video games and digital entertainment. In the core academic classes, students complete the same rigorous UC A-G college requirements as those enrolled in a traditional high school, in addition to game industry specific assignments and projects. The elective courses in the program are designed around the skillsets required to enter the video game industry, with lessons in computer programming, level design, 3D modeling, and player psychology. To supplement the computer-based skills, students participate in our be.prepared course and a character/prop design workshop. Be.prepared teaches student skills for life after high school, from basic cooking to submitting a college application and workplace soft skills. The character/prop design workshop is a game industry themed maker space, in which students learn how to use a wide range of tools and equipment to create character props and practical art, bringing their creations to life in the real world.

School Description and Mission Statement (School Year 2017-18)

Be.tech's vision is for every student to graduate with their high school diploma, career ready with the essential content knowledge and the 21st century skills that equip them to be successful in the local economy and prepare them to navigate as a global citizen in a rapidly changing society. Be.tech offers all students a means to tailor their education, providing them with educational choices and career pathway options. Students benefit from small classes, blended learning and flexible scheduling. Specialized study while completing their diploma coursework gives students the opportunity to earn one or more certificates in a career field. During the first year of training, career pathway classes provide students exposure to their chosen career field, career exploration and basic employment skills while they build their skill set in a professional working environment. The use of current technology, directed instruction, on-line courses and project-based learning, facilitates student learning. Students are provided extended job shadowing, internship and job opportunities to further build their skill set and resumé to prepare them for a successful career.

Be.tech is committed to preparing students to enter the work force with strong academic and career technical skills. Their course of study provides students with the ability to research, think and apply knowledge critically, communicate effectively, act responsibility, and demonstrate self-discipline. Be.tech students demonstrate strong entry level skill sets in a chosen profession coupled with documented experience so that they can secure employment upon graduation.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Teacher Credentials

Teachers	School			District
	2015-16	2016-17	2017-18	2017-18
With Full Credential	12	15	10	988
Without Full Credential	0	0	1	100
Teachers Teaching Outside Subject Area of Competence (with full credential)	0	0	0	0

Last updated: 12/21/2017

Teacher Misassignments and Vacant Teacher Positions

Indicator	2015-16	2016-17	2017-18
Misassignments of Teachers of English Learners	0	0	0
Total Teacher Misassignments*	0	0	0
Vacant Teacher Positions	1	0	0

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

* Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

School Facility Conditions and Planned Improvements

The District takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses the Facility Inspection Tool (FIT) instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the District Office. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings.

The Manteca Unified Vocational Academy (MUVA), also referred to as be.tech, building is located on the MUSD district office complex. A remodel of an existing building to house the MUVA program was completed in November 2012 and includes two classrooms (a computer lab and kitchen), a conference room, two office spaces, and the Cafe which is open to the public. In 2015/2016, six additional portables were added to the site and utilized by the program.

Maintenance and Repair.

District maintenance staff ensures that repairs necessary to keep schools in good working order are completed in a timely manner. A work order process is used to ensure efficient service and emergency repairs are given the highest priority.

Cleaning Process and Schedule.

The District's governing Board has adopted cleaning standards for all schools in the District. A summary of these standards is available at the school office and at the District Office. Staff works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance Program.

The District allocates funding for deferred maintenance. The Deferred Maintenance Program includes funding for replacement of existing school building components so that the educational process may safely continue. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, wall systems, floor systems, etc. The District's 2017-2018 budget allocated \$640,000 to address deferred maintenance needs throughout the district.

Modernization Projects.

The District is currently planning to renovate and modernize its schools based upon the District's 2014 Facility Master Plan. As part of that activity there are projects planned at Manteca Unified Vocational Academy which will be completed through the use of local funds. State funding will also be sought for those portions of projects which may be eligible for modernization funding.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in ELA and Mathematics for All Students

Grades Three through Eight and Grade Eleven (School Year 2016-17)

Subject	Percentage of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2015-16	2016-17	2015-16	2016-17	2015-16	2016-17
English Language Arts / Literacy (grades 3-8 and 11)	58%	33%	39%	41%	48%	48%
Mathematics (grades 3-8 and 11)	22%	6%	25%	25%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Last updated: 12/21/2017

CAASPP Test Results in ELA by Student Group**Grades Three through Eight and Grade Eleven (School Year 2016-17)**

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Met or Exceeded
All Students	63	57	90.48%	33.33%
Male	35	32	91.43%	46.88%
Female	28	25	89.29%	16.00%
Black or African American	--	--	--	
American Indian or Alaska Native				
Asian				
Filipino	--	--	--	
Hispanic or Latino	27	24	88.89%	33.33%
Native Hawaiian or Pacific Islander				
White	27	24	88.89%	41.67%
Two or More Races	--	--	--	
Socioeconomically Disadvantaged	33	30	90.91%	33.33%
English Learners	--	--	--	
Students with Disabilities	--	--	--	
Students Receiving Migrant Education Services				
Foster Youth				

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Native Hawaiian or Pacific Islander				
White	27	22	81.48%	--
Two or More Races	--	--	--	--
Socioeconomically Disadvantaged	33	26	78.79%	--
English Learners	--	--	--	--
Students with Disabilities	--	--	--	--
Students Receiving Migrant Education Services				
Foster Youth				

Note: Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Last updated: 12/21/2017

CAASPP Test Results in Science for All Students

Grades Five, Eight and Ten

Subject	Percentage of Students Scoring at Proficient or Advanced					
	School		District		State	
	2014-15	2015-16	2014-15	2015-16	2014-15	2015-16
Science (grades 5, 8, and 10)	0.0%	29.0%	0.0%	41.0%	56%	54%

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

Career Technical Education Programs (School Year 2016-17)

Be.tech is a high school career academy dedicated to providing high school students with workplace skills that can transfer into any career pathway while building their technical skills in one of the four CTE academies offered at Be.tech. Students benefit from small classes and specialized study in a professional working environment leading to a high school diploma, and one or more industry-recognized certificates in their career field. Student entrepreneurship is encouraged. Career pathway classes provide students exposure to their chosen career field, career exploration and basic employment skills while they build their skill set in a professional working environment. The use of current technology, directed and independent study instruction, on-line courses and project-based learning, facilitates student learning. Students are provided advanced classes to further develop their technical skills as well as job-shadowing, internship and job opportunities to further build their skill set and resumé to prepare them for a successful career. A work experience component provides students with practical employment experience while our Professional Development 101 course, guest speakers and fieldtrip opportunities provide students with broader career and employment exposure. Students are strongly encouraged to participate in non-paid work experience opportunities and to seek paid employment while in high school.

Career Technical Education Participation (School Year 2016-17)

Measure	CTE Program Participation
Number of Pupils Participating in CTE	213
Percent of Pupils Completing a CTE Program and Earning a High School Diploma	69.0%
Percent of CTE Courses Sequenced or Articulated Between the School and Institutions of Postsecondary Education	100.0%

Last updated: 12/14/2017

Courses for University of California (UC) and/or California State University (CSU) Admission

UC/CSU Course Measure	Percent
2016-17 Pupils Enrolled in Courses Required for UC/CSU Admission	78.5%
2015-16 Graduates Who Completed All Courses Required for UC/CSU Admission	5.2%

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

Opportunities for Parental Involvement (School Year 2017-18)

The success of students is impacted by the support and collaboration of the be.tech faculty, local business community, and parents. The School invites parent involvement and enjoys collaboration with Manteca Unified Educational Services, industry partners, local community service organizations and businesses. The school works with local businesses to provide students with learning experiences and opportunities to practice skills needed in the workplace as well as provide employment opportunities. Local high school events, school activities, and job skill training and employment opportunities are communicated to students and parents via the school website, social media and written correspondence.

State Priority: Pupil Engagement

Last updated: 12/8/2017

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates; and
- High school graduation rates

Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Indicator	School			District			State

School Safety Plan (School Year 2017-18)

All of the school sites in Manteca Unified School District annually update the Disaster Plan and School Safety Plan. The plan was revised by Safe Schools Consultants according to the required adoption process with appropriate School Site Council public hearings and School Safety Planning Committee input. Teachers and staff annually receive training on disaster procedures. Teachers and staff received ongoing training throughout the 2017-2018 school year in order to meet the appropriate guidelines established by the state. The safety plans are confirmed and approved by March 1, 2018.

Manteca Unified School District continues to make strides in the improvement of the educational climate and reduced disruptions in the classroom by "putting kids first" and asking the question, "Is it good for the children?" The safety of students and the security of campuses are high priorities in MUSD. School personnel and students participate in monthly disaster preparedness drills including specific procedures for fire, earthquake, flood, civil disturbance, and hazardous chemical situations. The school sites also focus on establishing goals that are needed.

The District has established procedures for submitting complaints against personnel and programs. An information brochure, policies, and forms are available to the public at the school site, on the District's website, and in all offices. Also, a nondiscrimination/harassment report form is used to help staff in reporting and tracking data.

Our schools work hard to improve academic achievement and provide alternative programming for "at risk" students. In addition, authorized prevention activities include conflict resolution strategies, before and after school programs, and district-wide efforts to prevent illegal gang activities with Drug Free and Tobacco Free School Zones clearly established and posted. Our District seeks grants and utilizes the Health Services Department to meet the health and counseling needs of students.

D. Other SARC Information

The information in this section is required to be in the SARC but is not included in the state priorities for LCFF.

Federal Intervention Program (School Year 2017-18)

Indicator	School	District
Program Improvement Status	Not in PI	Not in PI
First Year of Program Improvement		2007-2008
Year in Program Improvement		Year 3
Number of Schools Currently in Program Improvement	N/A	2
Percent of Schools Currently in Program Improvement	N/A	40.0%

Average Class Size and Class Size Distribution (Secondary)

Subject	2014-15			2015-16			2016-17					
	Average Class Size	Number of Classes *			Average Class Size	Number of Classes *			Average Class Size	Number of Classes *		
		1-22	23-32	33+		1-22	23-32	33+		1-22	23-32	33+
English	38.0	1	0	1	7.0	18	1	0	8.0	17	1	0
Mathematics	0.0	0	0	0	5.0	12	1	0	6.0	12	0	0
Science	0.0	0	0	0	2.0	11	0	0	6.0	8	0	0
Social Science	19.0	2	2	0	6.0	19	1	0	7.0	14	1	0

* Number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Types of Services Funded (Fiscal Year 2016-17)

All Manteca schools receive equal allocations of general fund support for staffing, instructional materials and supplies, custodian needs, and other uses. Funding for the support services such as maintenance of buildings and grounds, utilities, and student transportation is budgeted on a district-wide, centralized basis and provided to each school site-based on the unique needs of the individual school.

In addition to its support from the local general fund, each school in the Manteca Unified School District receives yearly allocations from various state and federal categorical programs. The purposes of these categorical programs range from improving the quality of the total instructional program for all students to addressing the unique needs of special groups of students such as limited-English proficient, academically deficient, and students at risk of dropping out of school.

Professional Development

Professional Development. Manteca Unified School District uses a number of models for professional development. The district has adopted the K-12 California State Content Standards for Math and English Language Arts, along with the California English Language Development (ELD) Standards, and the Next Generation Science Standards (NGSS). Beginning with the 2017-18 school year an emphasis will be placed on providing school site teams with continual training to use

assessment data to shift classroom instruction with the majority of the focus on mathematics. During the 2016-2017 school year, an emphasis was placed on providing teachers with continual training to implement the new standards, new ELA/ELD curriculum, deeper implementation of the math curriculum, infusing technology in the classroom, and the district's 1:1 digital initiative.

As with all training in the district, the focus will be on creating a student-centered approach in teaching that is geared towards providing students with the skills and content necessary for College and/or Career Readiness in the 21st Century. The major emphasis of professional development will be to train teachers to meet the California State Content Standards through a focus on Math, ELA/ELD, NGSS, and Technology. Teacher training opportunities are being provided through district office and site offerings, 24/7 access to an on-line digital platform, and during three Manteca Unified School District staff development days. The district has other opportunities for teacher training including the Teacher Induction Program, CCSS Implementation Walkthrough Training, 4th-5th grades ELD focused teacher district pull-out days, K-8 teacher curricular committees, 9-12 Professional Learning Communities (PLC), 9-12 Quality Instruction for Student Achievement (QISA), and high school teacher curricular committees, and along with a variety of other subject-area training is available.
