## California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

#### About Our School

George Y. Komure Elementary has made a commitment to provide all students with equal access to the best education. We are also dedicated to keeping our school a safe and positive learning environment. The centerpiece of our philosophy here at Komure is the belief that every student can succeed and we will do what needs to be done to help our students achieve their goals. Student assessments by the state have changed with the implementation of the Common Core State Standards. Teachers and support staff are involved with ongoing staff development to provide rigorous and relevant teaching to prepare our students for the new assessments and help all our students be successful in the future. Additionally, we are proud to state that we have a safe school atmosphere in which all students can feel welcome. This is all a real testament to our students and our staff. All of our staff is dedicated to continual growth for every student here at Komure. "Coyote PRIDE" is one of the ways we teach our students life skills. Our staff teaches and promotes what it looks like to "Be Safe, Be Respectful, and Be Responsible."

### School Description and Mission Statement (School Year 2017-18)

George Y. Komure Elementary School, named after a long-time French Camp area farmer, opened in July of 2002 as a Grade K-3 school to accommodate the rapid growth in the Weston Ranch area. It now houses grades K-8. The school is located in a middle class commuter community at the southern edge of Stockton, California. Here at Komure, we strive to stay ahead in educational models. In that vein, we have made dramatic advances in bringing the use of technology to our students to enhance their learning experience. We have a goal of staying on the cutting edge of great technological advances that enhance learning for our students. With that noted, to embrace the Common Core State Standards, all students and staff are teaching to the rigor and expectations to the ever changing educational demands. Our mission is to be a school in which every staff member believes that all students can succeed and each student knows the staff believes in them. A school in which only the highest standards of teaching and learning are acceptable. A school with pride of ownership, where teachers want to teach and students want to learn. A place students want to claim as their own. A school where everyone - community, parents, staff and students - all recognize and support the fact that our kids are receiving the best education a child can get. We are committed with Manteca Unified School District to, "Make a positive difference to each and every student daily."

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## School Facility Conditions and Planned Improvements

The District takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses the Facility Inspection Tool (FIT) developed by the State of California Office of Public School Construction. The results of this survey are available at the District Office. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

### Age of School Building.

George Komure School opened in 2002 with an administration building, library, multi-purpose room, and classrooms. Portable classrooms have been added for a total of 48 classrooms.

### Maintenance and Repair.

District maintenance staff ensures that repairs necessary to keep schools in good working order are completed in a timely manner. A work order process is used to ensure efficient service and emergency repairs are given the highest priority.

### Cleaning Process and Schedule.

The District's governing Board has adopted cleaning standards for all schools in the District. A summary of these standards is available at the school office and at the District Office. Staff works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

### Deferred Maintenance Program.

The District allocates funding for deferred maintenance. The Deferred Maintenance Program includes funding for expenditures for major repair or replacement of existing school building components so that the educational process may safely continue. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, wall systems, floor systems, etc. The District's 2017-2018 budget allocated \$640,000 to address deferred maintenance needs throughout the District.

### Modernization Projects.

The District is currently planning to renovate and modernize its schools based upon the District's 2014 Facility Master plan. As part of that activity there are projects planned at the campus which will be completed through the use of local funds. State funding will also be sought for those portions of projects which may be eligible for modernization.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in ELA and Mathematics for All Students

##### Grades Three through Eight and Grade Eleven (School Year 2016-17)

Students Receiving Migrant Education Services				
Foster Youth	24	23	95.83%	17.39%

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2017-18)

The success of a school is strongly influenced by the support of parents and the school community as a whole. George Komure School enjoys parent involvement and utilizes the services of the Parent Teacher Club (PTC) as well as the School Site Council to support students and school programs. Call our school at (209)-938-6320 to contact Jeff Podesto (Principal) or Mrs. Anita Tillotson (Vice Principal) to find out how you can get more involved with your child's education.

Manteca Unified School District strives to coordinate and communicate with the community including police, fire and other governmental agencies, news media, medical agencies, and other community organizations. A few examples of such coordination and communication with community agencies include: programs such as fire prevention, water safety, parks and recreation activities, and bike safety.

Parents regularly volunteer in the classroom and are actively involved in the School Site Council, school-wide planning, parent conferences, bilingual parent support groups, and various parent committees for fundraisers and field trips. The school publishes a newsletter that is distributed and sent home with students, as well as, available for viewing on the Komure School website and our Facebook page.

## School Safety Plan (School Year 2017-18)

All of the school sites in Manteca Unified School District annually update the Disaster Plan and School Safety Plan. The plan was revised by Safe Schools Consultants according to the required adoption process with appropriate School Site Council public hearings and School Safety Planning Committee input. Teachers and staff annually receive training on disaster procedures. Teachers and staff received ongoing training throughout the 2017-2018 school year in order to meet the appropriate guidelines established by the state. The safety plans are confirmed and approved by March 1, 2018.

Manteca Unified School District continues to make strides in the improvement of the educational climate and reduced disruptions in the classroom by "putting kids first" and asking the question, "Is it good for the children?" The safety of students and the security of campuses are high priorities in MUSD. School personnel and students participate in monthly disaster preparedness drills including specific procedures for fire, earthquake, flood, civil disturbance, and hazardous chemical situations. The school sites also focus on establishing goals that are needed.

The District has established procedures for submitting complaints against personnel and programs. An information brochure, policies, and forms are available to the public at the school site, on the District's website, and in all offices. Also, a nondiscrimination/harassment report form is used to help staff in reporting and tracking data.

Our schools work hard to improve academic achievement and provide alternative programming for "at risk" students. In addition, authorized prevention activities include conflict resolution strategies, before and after school programs, and district-wide efforts to prevent illegal gang activities with Drug Free and Tobacco Free School Zones clearly established and posted. Our District seeks grants and utilizes the Health Services Department to meet the health and counseling needs of students.

## Types of Services Funded (Fiscal Year 2016-17)

All Manteca schools receive equal allocations of general fund support for staffing, instructional materials and supplies, custodian needs, and other uses. Funding for the support services such as maintenance of buildings and grounds, utilities, and student transportation is budgeted on a district-wide, centralized basis and provided to each school site-based on the unique needs of the individual school.

In addition to its support from the local general fund, each school in the Manteca Unified School District receives yearly allocations from various state and federal categorical programs. The purposes of these categorical programs range from improving the quality of the total instructional program for all students to addressing the unique needs of special groups of students such as limited-English proficient, academically deficient, and students at risk of dropping out of school.

## Professional Development

Professional Development. Manteca Unified School District uses a number of models for professional development. The district has adopted the K-12 California State Content Standards for Math and English Language Arts, along with the California English Language Development (ELD) Standards, and the Next Generation Science Standards (NGSS). Beginning with the 2017-18 school year an emphasis will be placed on providing school site teams with continual training to use

assessment data to shift classroom instruction with the majority of the focus on mathematics. During the 2016-2017 school year, an emphasis was placed on providing teachers with continual training to implement the new standards, new ELA/ELD curriculum, deeper implementation of the math curriculum, infusing technology in the classroom, and the district's 1:1 digital initiative.

As with all training in the district, the focus will be on creating a student-centered approach in teaching that is geared towards providing students with the skills and content necessary for College and/or Career Readiness in the 21st Century. The major emphasis of professional development will be to train teachers to meet the California State Content Standards through a focus on Math, ELA/ELD, NGSS, and Technology. Teacher training opportunities are being provided through district office and site offerings, 24/7 access to an on-line digital platform, and during three Manteca Unified School District staff development days. The district has other opportunities for teacher training including the Teacher Induction Program, CCSS Implementation Walkthrough Training, 4th-5th grades ELD focused teacher district pull-out days, K-8 teacher curricular committees, 9-12 Professional Learning Communities (PLC), 9-12 Quality Instruction for Student Achievement (QISA), and high school teacher curricular committees, and along with a variety of other subject-area training is available.
