## California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### School Description and Mission Statement (School Year 2017-18)

Sequoia School is a K-8 school with an enrollment of approximately 780 students located in the center of the City of Manteca. All staff is "NCLB highly qualified," including paraprofessionals. The site includes a library. Each classroom is equipped with current technology including individual internet-capable student devices for all students in grades K-8, and technological equipment is available for student use with teacher supervision. The school site has a gym with a facility to hold public and school events. Three preschool programs operate at Sequoia School: one in the morning, and one in the afternoon with differing fees and eligibility requirements, and a Headstart program. Sequoia is a feeder school to Manteca High School. Sequoia's rate for the free or reduced meals program is 82% in comparison to the District average of 44%. The API School Report shows a school mobility rate of 15%.

Mission Statement: Sequoia School, in partnership with our culturally and economically diverse students, parents, and community is dedicated to continued high expectations. We are committed to providing challenging academic instruction and character development in order for all students to reach their fullest potential.

## School Facility Conditions and Planned Improvements

The District takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses the Facility Inspection Tool (FIT) instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the District Office. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

### Age of School Buildings.

The main campus was built in 1957, and an addition was built in 1958, and both were modernized in 1990 and again in 2015. Portable classrooms were added in 1978, 1979, 1985, 1986, 1991, 1995, 1996 (library), 1997, and a multi-purpose in 2003. The 2015/2016 modernization project included a new administration/classroom building housing and eight new classrooms, the modernization of the permanent class building, conversion of existing administration to classroom space as well as the removal of several portable classrooms. At the completion of the modernization, the campus now includes 29 permanent classrooms, 9 portable classrooms, a portable library, a multipurpose room and administration building.

### Maintenance and Repair.

District maintenance staff ensures that repairs necessary to keep schools in good working order are completed in a timely manner. A work order process is used to ensure efficient service and emergency repairs are given the highest priority.

### Cleaning Process and Schedule.

The District's governing Board has adopted cleaning standards for all schools in the District. A summary of these standards is available at the school office and at the District Office. Staff works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

### Deferred Maintenance Program.

The District allocates funding for deferred maintenance. The Deferred Maintenance Program includes funding for replacement of existing school building components so that the educational process may safely continue. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, wall systems, floor systems, etc. The District's 2017-2018 budget allocated \$640,000 to address deferred maintenance needs throughout the district.

### Modernization Projects.

The District is currently modernizing the campus based upon the District's 2014 Facility Master Plan. As part of that activity there are projects planned at Sequoia which were completed through the use of local funds. State funding applications for those portions of projects which may be eligible for modernization funding have been submitted.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in ELA and Mathematics for All Students

##### Grades Three through Eight and Grade Eleven (School Year 2016-17)

Subject	Percentage of Students Meeting or Exceeding the State Standards					
	School		District		State

Mathematics (grades 3-8 and 11)	22%	21%	25%	25%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Foster Youth	--	--	--	--

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2017-18)

The success of a school is strongly influenced by the support of parents and the school community as a whole. Our school enjoys parent involvement and utilizes the services of the Parent Teacher Partnership (PTP), School Site Council, as well as the English Language Advisory Committee, to support students and school programs. Contact our school's PTP at (209) 565-1710 to find out how you can get more involved with your child's education. Parents are welcomed in the classrooms, and many volunteers benefit our students' education. Junior High parents are encouraged to participate with their child's education through the Pathways Program with Manteca High School. Parent Connect is also available for grades 4-8, which allows parents to track attendance and academic progress of their student(s).

Manteca Unified strives to coordinate and communicate with the community including police, fire and other governmental agencies, news media, medical agencies, and other community organizations. A few examples of such coordination and communication with community agencies include programs such as fire prevention, water safety, parks and recreation activities, bike safety, and our School Resource Officers.

Parents regularly volunteer in the classroom and are actively involved in the School Site Council, school-wide planning, parent conferences, bilingual parent support groups, and various parent committees for fundraisers and field trips. The school maintains an informational Facebook page and a website with contact and other vital information. We encourage all parents to get involved in their child's education.

### State Priority: Pupil Engagement

## School Safety Plan (School Year 2017-18)

All of the school sites in Manteca Unified School District annually update the Disaster Plan and School Safety Plan. The plan was revised by Safe Schools Consultants according to the required adoption process with appropriate School Site Council public hearings and School Safety Planning Committee input. Teachers and staff annually receive training on disaster procedures. Teachers and staff received ongoing training throughout the 2017-2018 school year in order to meet the appropriate guidelines established by the state. The safety plans are confirmed and approved by March 1, 2018.

Manteca Unified School District continues to make strides in the improvement of the educational climate and reduced disruptions in the classroom by "putting kids first" and asking the question, "Is it good for the children?" The safety of students and the security of campuses are high priorities in MUSD. School personnel and students participate in monthly disaster preparedness drills including specific procedures for fire, earthquake, flood, civil disturbance, and hazardous chemical situations. The school sites also focus on establishing goals that are needed.

The District has established procedures for submitting complaints against personnel and programs. An information brochure, policies, and forms are available to the public at the school site, on the District's website, and in all offices. Also, a nondiscrimination/harassment report form is used to help staff in reporting and tracking data.

Our schools work hard to improve academic achievement and provide alternative programming for "at risk" students. In addition, authorized prevention activities include conflict resolution strategies, before and after school programs, and district-wide efforts to prevent illegal gang activities with Drug Free and Tobacco Free School Zones clearly established and posted. Our District seeks grants and utilizes the Health Services Department to meet the health and counseling needs of students.

## Types of Services Funded (Fiscal Year 2016-17)

All Manteca schools receive equal allocations of general fund support for staffing, instructional materials and supplies, custodian needs, and other uses. Funding for the support services such as maintenance of buildings and grounds, utilities, and student transportation is budgeted on a district-wide, centralized basis and provided to each school site-based on the unique needs of the individual school.

In addition to its support from the local general fund, each school in the Manteca Unified School District receives yearly allocations from various state and federal categorical programs. The purposes of these categorical programs range from improving the quality of the total instructional program for all students to addressing the unique needs of special groups of students such as limited-English proficient, academically deficient, and students at risk of dropping out of school.

## Professional Development

Professional Development. Manteca Unified School District uses a number of models for professional development. The district has adopted the K-12 California State Content Standards for Math and English Language Arts, along with the California English Language Development (ELD) Standards, and the Next Generation Science Standards (NGSS). Beginning with the 2017-18 school year an emphasis will be placed on providing school site teams with continual training to use

assessment data to shift classroom instruction with the majority of the focus on mathematics. During the 2016-2017 school year, an emphasis was placed on providing teachers with continual training to implement the new standards, new ELA/ELD curriculum, deeper implementation of the math curriculum, infusing technology in the classroom, and the district's 1:1 digital initiative.

As with all training in the district, the focus will be on creating a student-centered approach in teaching that is geared towards providing students with the skills and content necessary for College and/or Career Readiness in the 21st Century. The major emphasis of professional development will be to train teachers to meet the California State Content Standards through a focus on Math, ELA/ELD, NGSS, and Technology. Teacher training opportunities are being provided through district office and site offerings, 24/7 access to an on-line digital platform, and during three Manteca Unified School District staff development days. The district has other opportunities for teacher training including the Teacher Induction Program, CCSS Implementation Walkthrough Training, 4th-5th grades ELD focused teacher district pull-out days, K-8 teacher curricular committees, 9-12 Professional Learning Communities (PLC), 9-12 Quality Instruction for Student Achievement (QISA), and high school teacher curricular committees, and along with a variety of other subject-area training is available.
