

COMMON CORE STATE STANDARDS

The goal of the Common Core State Standards is to ensure that all students are college- and career-ready by the end of high school.

MISSION STATEMENT

- *The goal of the Common Core State Standards is to ensure that all students are college-and career-ready by the end of high school. Our CCSS implementation plan is to provide structures to deliver coherent, relevant, and rigorous learning—kindergarten through 12th grade. In making the change to the Common Core State Standards, MUSD will continue to inspire new ways of teaching, learning and thinking. We will achieve this by providing CCSS related professional development to staff and CCSS aligned core curriculum materials and instruction to students.*
